MR. MORRISON'S DESCRIPTION

Missionary Spoke Twice Here on Sunday Last-The Superstitions of the People.

the Rev. W. M. Morrison, D. D., the dis-

the Rev. W. M. Morrison, D. D., the distinguished Presbyterian minister, gave vivid and striking accounts of the romarkable conditions prevailing to-day in dark Africa, and of some of the honors being visited upon the heathen natives by Leopoid II., the Christian king.

It will be recalled that Dr. Morrison not so long ago, created a distinct sonsation by his revelations concerning the rule of the Belgian despot, in whose far-away African dominion the missionary worked for many years. To him is largely due the credits of provoking the investigation that all hope will lead to better and more human government in the Congo. He was in Richmond on Sunday in the interests of the missionary work in general, and of the new steamboat Lapsiey in particular. It is absolutely necessary that a new the new steamboat Lapsey in particular.

It is absolutely necessary that a new boat be built at once to take the place of the one that recently capsized with such fearful loss of life. About \$25,000 is needed for this purpose, and Mr. Morrison visits Richmond and will visit other than the scale of the collection of rison visits Richmond and will visit other places to seek to make the collection of this fund possible. He spoke twice here, in the morning at the First Presbyterian Church, and in the evening at Grace Street. Some who heard him declare that the sermons were the finest missionary appeals ever made in Richmond.

A Remarkable Field. A Kemarkable Field.

According to Dr. Morrison, the African mission is the most remarkable of the enterprises of the church. It was started in 1891, and the first convert was received in 1895. To-day there are over 2,000. In its report to the last Goneral Assembly the mission showed that of the entire number of converts in the missionaries. The had received only ten missionaries. The church at Luebo has had to be enlarged constantly. About eighteen months ago a now building was creeted and it was thought to be sufficiently large to satisfy all demands and last for many years. It seated 1,200 to 1,500 people. In a recent letter to Dr. Morrison, a worker in the

letter to Dr. Morrison, a worker in the fields says the churc.. is overflowing and more room is needed.

The African mission is on the Kassai River, a tributary of the Congo, 1,200 miles inland from the west coast of Africa, and six degrees below the equator. The work is among the great Baluba tribe which is more intelligent and less uppersitious than the others Dr. Morrison. perstitious than the others. Dr. Morrisuperstitious than the others. Dr. Morrison says the Southern Presbyterian Church has found the keynote to the evangelization in its plan of sonding out negro missionaries. William H. Sheppard, a negro and a fellow of the Royal Geographical Society, went out with the immortal Lapsiey, and he is still there. Dr. Morrison, says he is the greatest negro in the world, with the possible exception

Is Down on Leopold. Of Leopold, who was chosen by the powers to rule the Congo Free State, Dr. Morrison speaks with the utmost con-

tempt. He says a worse selection could not have been made if the signatories to treaty had searched the wide world

The natives, says Dr. Morrison, live in villages, and it is Leopold's habit to levy tribute from the villages every little while. The tribute is mostly of ivory and rubber, which the king appropriates and rubber, which the king appropriates to his own use. If the natives cannot pay, which is usually the case, the village is destroyed by soldiers, the inhabitants are killed or captured, the women and children are sold, the men with ropes around their necks are carried away and made to work on steamboats or serve in the army. The fear of the natives is so great that whenever the soldiers approach a village to levy trihappened once at Leubo, where the mission headquarters are stationed—a town of 10,000 to 12,000 inhabitants. Everybody fied. Eighteen men were eventually caught and dragged off. Leopold makes no distinction among the natives, and captures and ensiaves Christians and heathens alike.

The natives in the king's army are

At Laurel Street.

Despite the inclemency of the weather, appreciative congregations were present at Laurel Street Methodist Church at both services on Sunday. This is especially true of the morning service, which was given over to the children of the church. Dr. Johnson, the pastor, made a brief and practical talk to the little folks, and it made a deep impression on them, judging from the interest they manifested and the attention they paid the speaker.

Revival Services.

Protracted services will begin at Pine Street Baptist Church on the first Sun-day in March. Rev. Mr. Duke, who con-ducted similar services at this church several years ago, will help the pastor, Rev. Dr. J. B. Hutson, in the meeting.

Cannabalism is not general in Africa and it is disappearing. The people are very superstitious, however. They do very superstitious, however. They do not believe that a man dies from natural not believe that a man dies from natural causes, but that his death is caused by some evil influence exerted by another. In one of the villages there was a great commotion, and Dr. Morrison and Sheppard, who were near, inquired concerning it. What they were told led them to go into the place and see for themselves. The village was in an uprour. A man had died and the people were searching for the person who had caused his death. Suspicion at last centered on two women, Suspicion at last centered on two wom and they were tried in a manner that recalls the New England persecution of witches. Within a few feet were her two sons. With the utmost unconcern they dragged the dead body into a near by field, put it on a pile of brush and burned it. Dr. Morrison was present at this scene. He protested, but could not prevent it.

STREET IMPROVEMENTS.

The appropriation of less than \$5.00 for streets this year is looked upon with surprise and dissatisfaction by citizens generally. Last year the appropriation was \$7.00, and the committee felt that this year the appropriation would be larger. Instead it was smuller, and with this small sum much less work can be done on the streets, which so badly need something.

It is believed that, if the Legislature acts favorably upon the proposed bill, rearranging the assessments on rolling stock, so that the city of Manchester may get the \$5.20 that hac been coming this way for taxation, that amount may be apropriated to streets.

MOTHERS ORGANIZE.

A colored woman named Emma Ward, aged about sixty-two years, was burned to drath at her home, No. 119 North Seventeenth Street, on Sunday night, between 8 and 9 o'clock.

The old woman was found by neighbors, who smelled the smoke. They went to the house, and found the woman dead. Blue is believed to have been burned by the upsetting of a lamp.

Cyoner Taylor was called, but found nothing to do, and the oody was turned over to the relatives.

The old woman and a small child were alone in the house at the time. The child was not injured. Interesting Meeting Held Yesterday at Bellevue Kindergarten. The Believue Kindergarten Mothers organized yesterday under happy auspices. This is the second organization of its kind in the city.

At a regular mothers' meeting at the Believue Kindergarten yesterday aftermoon the director. Miss Bates, gave a most interesting and profitable talk on the importance of the formation of good habits while the child is in its most plastic stage. Delegate Duke, of Albemarle, appeared before the General Laws Committee of the House last night in support of his bill providing for the apointment of oil inspectors for the State, but the matter was passed by in order to allow some other parties to be heard. Mr. A. W. Patterson, representing some independent companies, appeared against the bill.

habits while the child is in its most plastic stage.

Miss Pliman followed with a very instructive illustration of the practical work of the kindergarten.

The mothers were enthusiastic in their response, which they proved by the hearty spirit of their unanimous vote to organize at once for the promotion of the physical, mental and moral development.

Miss Bates was unanimously elected president; Mrs. Morgan R. Mills, recording secretary; Mrs. Cottrell, corresponding secretary; Mrs. Pittman, treasuror, and Mrs. Anderson, librarian.

The constitution was framed, various committees appointed; and plans for definite work outlined.

It was decided to meet the first Thursday in each month at the kindergarten building. Peliceman Charles C. Green and Miss May R. Dillon were married in Washington last Wednesday.

Mr. Green is one of the new policemen and has already shown himself to be a good one. His bride is an attractive young Manchester lady.

Much attention was given to-day to the appointment of B. C. Tunison as United States commissioner, the proceeding of lattice and a bad reputation and exercised a bad influence over Judge Swayne. Several witnesses testified that Judge Swayne resided in Delaware until a short time ago, coming to Pensavola only when necessary to hold sessions of the court.
